

## EMERGENCY CODES – An Important Notice For Your Safety

Standardized Emergency Codes are required to identify a risk or emergency situation within our facility. They will be announced over the public address system, and when there is no further risk you will hear the “all Clear” announced to end the Code. Codes are routinely tested to ensure we are prepared and they will be treated like we are experiencing the “real thing”. Staff are thoroughly trained to respond to each code, and will provide direction to you as needed..

Code/Emergency	What will happen?	What do I do?
<b>Code RED- Fire</b>	<ul style="list-style-type: none"> <li>You will hear bells or chimes; you will see flashing strobe lights from the ceilings in the corridors.</li> <li>You will hear “Code Red” and location announced 3 times.</li> <li>Further information about the fire will be announced as known.</li> </ul>	<p><b>For all Codes:</b></p> <ul style="list-style-type: none"> <li><b>Remain where you are.</b></li> <li><b>You will be directed if you are required to move or leave the building.</b></li> <li><b>Stay to one side of the hallway or in patient room - Staff will be responding quickly.</b></li> <li><b>Please remain calm.</b></li> </ul>
